25X1

The former improvised airfield about 4 km northwest of Schafstaedt (M 52/D 71) was unoccupied. Two former airfield billets on the eastern edge of the landing field were occupied by farmers who cultivated a section of the landing field and used the other section as pasture land. The latter part of the landing field, a marshy meadow, was not serviceable for aircraft. A ruin was at the southwestern corner of the field. There was no railroad spur track.
